

Eliminate down time.

Stop the web tearing by Dry Fog humidification.

Nikkan Sport Newspaper Printing Co., Ltd.

Dry Fog Humidifier AKIMlist®"E"

■ Time saving

Remove down time due to web tearing and feeding troubles.

■ Cost Saving

US\$ 50,000 per year has been saved in winter season (4months).

■ Direct Humidification by Dry Fog

Dry Fog (non wet fog) can humidify directly and efficiently on the target.

Actual results

- Prevent web tearing by holding the strength of paper by retaining the moisture content.
- Prevent paper feeding troubles due to drying of paster part.

Avoid wasteful cost of teared web and man charge for down time.

US\$ 50,000 saved every winter.

It is a case of customer who reduced down time to half.

Why Dry Fog?

Because Dry Fog vails the place where just need humidity without wetting, you can do most efficient humidification.

Only AKIMist®"E" can generate Dry Fog.
